PRACTICE QUESTION SET

1. In the adjoining figure, dots are arranged in a special way. How many rows in all would be having 4 dots in each?

- (A) 3
- (O) 5
- (O) 7
- (O) 9

2. What is the minimum number of colours required if the following figure is to be coloured such that no two adjacent sides have the same colour?

- (A) 2
- (A) 3
- (C) 4
- (O) 5

3. A cube is to be coloured in such a way that no two opposite faces have the same colour. The minimum number of colours required is

- (A) 1
- (B) 2
- (Ci) 3
- (o) 6

4. How many faces does the figure shown have?

- (*) 6
- (fl) 12
- (Q) 13
- (Di) 14
